PROFESSIONAL SUMMARY

A highly motivated and results-driven Software & AI Developer entering Badr University (Faculty of Engineering). Possesses practical experience in Python, C#, and Dart/Flutter, with a strong foundation in Artificial Intelligence and Automation. Proven track record of building end-to-end applications, including an automated trading platform and a freelance management system. Seeking an entry-level or internship position to leverage technical skills and contribute to innovative software solutions.

EDUCATION

Badr University in Cairo (BUC)	Expected 2031
<i>Bachelor of Science in Engineering (First Year)</i>	
High School Certificate	Graduated 2026

TECHNICAL SKILLS

Languages:	Python, C#, Dart
AI & Automation:	Artificial Intelligence, AI Automation, Data Analysis, Robotic Systems Basics
Development:	Full-Stack Development, Object-Oriented Programming (OOP), Problem Solving, Software Architecture, System Design
Tools & Platforms:	Git/GitHub, VS Code, Visual Studio

PROJECTS

Automated Trading Application	Lead Developer
- Developed a complete, functional trading application utilizing Python for backend logic and data processing. - Implemented AI concepts and algorithms to analyze market trends and automate specific trading workflows. - Designed a user-friendly interface and integrated efficient system architectures to handle real-time data.	
Freelance Management System	Full-Stack Developer
- Built an end-to-end system tailored for freelance workflows, enabling task tracking, client management, and automation. - Utilized C# and software development best practices to ensure system stability and performance. - Structured database concepts to handle user data securely and efficiently.	

PROFESSIONAL EXPERIENCE

Freelance Software Developer	2025 – Present
<i>Self-Employed</i>	
- Designed and developed custom software solutions and AI automation workflows for various clients. - Applied advanced problem-solving skills to debug complex code and optimize system performance. - Managed end-to-end project lifecycles, from gathering requirements to final deployment.	

CERTIFICATIONS

- **AI Professional Certification** – IBM SkillsBuild
- **Technical Certification** – Microsoft
- **Full-Stack / Software Development Certification** – freeCodeCamp
- **Artificial Intelligence Foundations Certificate** – Maharatak (مهاراتك)
- **Advanced C# Programming Certificate** – Maharatak (مهاراتك)

SOFT SKILLS

- Advanced Problem Solving & Critical Thinking
- Time Management & Self-Discipline (Proven through Freelancing)
- Continuous Learning & Adaptability
- Teamwork & Effective Communication
